504.920.8355

Architectural designer by trade, maker, pen sketcher, and people watcher. I love design, and I love that it is capable all on it's own. I have experience in firms large, small, traditional, and otherwise. I enjoy place-making as an art form and believe that we, as designers, hold instruments of peace. Crunchy, I know.

## EDUCATION

Louisiana State University  
Bachelor of Architecture

## DIGITAL PROFICIENCIES

- Adobe Illustrator
- Adobe InDesign
- Adobe Photoshop
- Adobe After Effects
- Revit
- Rhino 3D (Grasshopper, Lady Bug)

## EXPERIENCE

### Colliers Engineering & Design - Designer

December 2023 - Present

- Worked extensively on Bank of America's signage program, surveying existing conditions, creating design schemes using updated branding assets and guidelines, and conducting signage code research.
- Worked on projects during schematic, developmental, and construction document phases
- Authored renderings for site plans and overall building schemes
- Authored area plans, floor plans, life-safety plans, interior and exterior elevations, finish plans and finish schedules
- Developed site adaptation packages and proposals for design related work and installation
- Coordinated and communicated information and budgets across disciplines for efficiency and transparency during project process

### Kimble - Design Contractor

December 2021 - December 2023

- Developed project proposals and packages
- Authored floor plans and building schemes for residential and commercial projects
- Authored renderings for client review and design intent
- Conducted client, vendor, and stakeholder meetings during project process

### Curious Form Fabrication - Fabrication Contractor

May 2022 - August 2022

- Worked on project teams designing, constructing, and installing large-scale steel art forms, interactive art forms, and commercial displays. Clients included AARP, Hangout, Burning Man, municipalities, and immersive art parks.
- Worked as a machinist fabricating parts and other assests for installations
- Created shop drawings, CNC drawings, and hand drawings for design execution

### Manning Architects - Designer

Seasonally May 2019 - May 2020

- Conducted material research while creating an office-wide sustainability standard
- Assisted project teams during schematic design phases of projects
